## OBJECTIVE

---

Aspiring Java Full Stack Developer with knowledge of React, Java, Spring Boot, and REST APIs. Seeking an internship opportunity to contribute to scalable applications while strengthening backend and system design skills.

## EDUCATION

---

### Bachelor of Technology (B.Tech)

2023 – 2027

Electronics & Telecommunication Engineering (ETC)

Bhilai Institute of Technology, Durg

CGPA: 7.0

## SKILLS

---

### Programming Languages

Java, JavaScript, HTML, CSS

### Frontend

React.js, Redux Toolkit, Tailwind CSS, Framer Motion

### Backend

Java, Spring, Spring Boot, Spring Security

### Database

MySQL

### Tools & Technologies

Git, GitHub, VS Code, Postman, npm, Vite, Chrome DevTools, Vercel, Railway

### Concepts

REST APIs, Authentication, Role-Based Access Control, State Management

## PROJECTS

---

### E-Commerce Web Application

*React.js, Redux Toolkit, Tailwind CSS, Java Spring Boot, MySQL, Razorpay*

- Developed a full-stack e-commerce application enabling users to browse products, manage cart, place orders, and make secure online payments.
- Implemented authentication, role-based access (Admin/User), order tracking, and Razorpay payment integration.
- Developed core frontend features using React and Redux Toolkit and handled payment success and failure flows.

[Live Demo](#)

### Foodly – Online Food Ordering Web Application

*React.js, JavaScript, Redux Toolkit, Tailwind CSS, REST APIs*

- Built an online food ordering platform allowing users to browse restaurants, view food items, add to cart, and place orders.
- Implemented cart functionality, authentication, and order flow using Redux Toolkit.
- Integrated APIs for food listing, user authentication, and order placement.
